

## How Might We Statement Worksheet

After completing the tree activity you should have one leaf and one root that your group is going to focus on for the remainder of the course.

**WHO** do you want to help? (Be as specific as you can; Examples: Teen Girls, Parents of teens, Government Officials, School Administrators)

formerly incarcerated women

**WHAT** do you want to help them with? (This can be a little broader but will be narrowed down later).

we want to help them access higher education

**HOW** do you want to help them?

providing resources about which colleges accept felons and how to obtain financial aid

## BUILD YOUR “*HOW MIGHT WE STATEMENT*” (HMW)

This statement will help you develop a question that your group will work on together to solve the problem you are looking at. The more specific, the better!

How might we build a website to (intended action):

providing resources about which colleges accepts returning citizens and how to obtain financial assistance

For (who do you want to help?):

formerly incarcerated woman

So that (desired impact):

to give them a better chance to access higher education opportunities.

How might we build a website that provides resources to formerly incarcerated women about financial assistances and colleges that accept returning citizens.
